Craighead Primary School

School Profile 2024

Context of Craighead Primary School and Nursery Class

Craighead Primary is a non-denominational school in the village of Milton of Campsie. The school was built in 1968 with a nursery class opening in 1997.

Our current roll is 235 pupils plus 40 nursery children. The staffing complement is 13.81 including the Head Teacher, 1 Depute Head Teacher, a Principal Teacher and 5.5 Early Years Workers. We have 3.5 support staff members including Classroom Assistants and Support for Learning Assistants. An Administration Assistant and Clerical Assistant provide administration. Children enter our Primary 1 from a variety of nurseries.

The school has a very strong Parent Council and Fundraising Committee who support the school well. We have very strong links with the community including many business partners.

At Craighead supporting and challenging our children as they grow as learners is our central aim. We understand the importance of providing a safe and inclusive environment and we are aware of the different barriers to learning; we strive to put in place support and challenge which is targeted to meet the individual needs of each child. The school offers a safe place, where pupils are nurtured in order to develop their confidence, self-esteem and emotional resilience. We work together with all key stakeholders to ensure all of our children develop to their full potential. We provide a wide variety of opportunities to allow our children to participate in our wider community.

Our Shared Vision, Values & Aims

Vision

'Nurturing, supporting and challenging our children as they grow as learners' is our overarching vision for all our pupils and staff; and alongside our school values of *respect, equality* and *integrity*, we aim to ensure all our children and staff are nurtured and engaged in every learning experience.

In Craighead Primary School we aim to ensure that everyone develops the attributes, knowledge and skills they will need for life, learning and work. We strive to enable all of our school community to become

- Success learners
- Confident individuals
- Effective contributors
- Responsible citizens

Aims

As such our aims are as follows:

- To achieve the best for each child through partnership between learners, staff, parents and the wider community.
- To promote equality, diversity and inclusion for all.
- To manage and deliver programmes and activities to meet the needs of all learners.
- To promote positive liaison between all stakeholders and the community where the views of everyone are valued.
- To recognise and celebrate attainment and achievement in school and within the wider community.
