Lenzie Meadow Primary and Early Years' Centre opened on 18th August 2016, opening its door to 3-5 year olds in our Centre and Primary 1 to Primary 7 in our school. We have 20 Primary classrooms with a current roll of 564 pupils. All stages are triple stream with the exception of a composite at P5/6.

Our school is situated in the centre of a residential area and our building is of the highest standard with state of the art technology including interactive promethean boards in every classroom, social and dining space for pupils, outdoor play areas including a full-size 3G astro grass pitch, a netball court, amphitheatre and allotment area. We are also situated next to 'the Moss' in Lenzie which is ideal for outdoor learning activities and walks.

We benefit from an excellent 54/54 extended day/year early years centre which also includes 10 two years old places. Children from various pre-five establishments attend our school and well established links have been forged at both nursery and secondary allowing us to offer a highly effective transition programme. At the end of Primary 7 pupils transfer to the nearby secondary school, Lenzie Academy.

As a school and Early Years' team we pride ourselves in our commitment to meeting the needs of our children and we work tirelessly to support our children in becoming the very best versions of themselves possible. As a learning community we share the values of Respect, Kindness, Safety and Determination and we seek to represent these values in our day-to-day interactions in and beyond our school and Centre. Through strong relationships and partnership, we strive to meet the following aims;

- provide a curriculum which shows breadth, balance, continuity, progression and integration within quality programmes of study
- achieve the highest levels of attainment and celebrate our success

- assess pupils' progress effectively, keeping appropriate records and reporting to parents
- ensure Learning and Teaching guarantees inclusion in a motivating, enterprising environment, encouraging all children to be responsible and independent in their learning to enable them to be valuable citizens within a curriculum of excellence
- establish a positive ethos based on a climate of mutual respect, encouraging diversity, equality and fairness through strong partnerships, therefore, creating a welcoming happy atmosphere
- provide through supportive study a wide variety of activities to promote healthy individuals
- allocate staff, resources and materials appropriately, ensuring effective learning and teaching
- provide annual reviews, financial support and staff development opportunities to enable staff to meet the challenges of the future
- foster good relationships and team work through consultation, development planning and high quality leadership
- provide opportunities for Pupil Voice and extra-curricular activities through committees, electives and after school clubs. Examples of these can be found on our Twitter feed and newsletters within the school website.

Our school and Early Years' Centre is supported by a very active Parent Council and PTA and both groups support the wider parent voice as well as organising fund raising events which not only provide children and families with lovely experiences, but also raise funds for the school and centre. We are extremely proud of the positive relationships we have with our families and we are strongly committed to partnership working.
