Contact Name: Nicholas Scully

Contact email: Nicholas.Scully2@highland.gov.uk

Job Purpose

Work as part of the Lighting and Communications operational team to install, maintain, inspect and repair street lighting and associated electrical infrastructure.

Support the delivery of maintenance, renewal, installation and fault response activities, ensuring work is completed safely, efficiently and to the required standard.

Contribute to the delivery of street lighting, floodlighting, illuminated signs and other approved electrical services across the operational area in accordance with relevant legislation, standards and Council procedures.

Job Description – Key Duties and Responsibilities

1. Install, maintain, inspect and repair street lighting, illuminated signs, floodlighting and other associated electrical infrastructure in accordance with approved standards and specifications.
2. Undertake planned maintenance, renewal, installation and fault response activities to ensure the safe and effective operation of Lighting and Communications assets.
3. Carry out electrical testing, inspection, fault-finding and repair work in accordance with relevant legislation, regulations and technical standards.
4. Assist with the installation, maintenance, inspection and repair of traffic signals, navigational aids and electrical installations within Council depots and offices, supporting the delivery of Lighting and Communications services and specialist maintenance activities where required.
5. Drive and operate mobile elevating work platforms (MEWPs), as well as tools and equipment required for the delivery of the service.
6. Ensure compliance with the Electricity at Work Regulations 1989, BS 7671 IET Wiring Regulations, Council policies, Health and Safety requirements and safe working practices.
7. Complete work records, inspections, asset information and other operational documentation in accordance with Council procedures.
8. Assist with the inspection, testing and maintenance of lighting and associated electrical assets to support planned maintenance and replacement programmes.
9. Liaise with colleagues, contractors and members of the public as required to support the effective delivery of services.
10. Participate in the Council's emergency response and call-out arrangements and undertake duties outwith normal working hours where required, standby payment and enhanced hourly rates apply.
11. Support the training and development of apprentices, trainees and less experienced employees where required
12. Provide support across operational functions within the section during periods of absence or increased workload.

Other Duties

The postholder may be required to undertake any other duties appropriate to the level of the post.

Duties and responsibilities will vary from time to time.

Person Specification

Essential Attributes

- Possession of a current SJIB registration card or working towards achieving approved status.
- Ability to undertake electrical installation, maintenance and fault-finding activities in accordance with relevant legislation, regulations and technical standards.
- Ability to work safely at height and undertake duties using mobile elevating work platforms (MEWPs) and associated equipment in an outdoor environment and in varying weather conditions.
- Strong commitment to Health and Safety procedures and safe working practices.
- Ability to work effectively as part of a team and contribute positively to service delivery.
- Ability to follow instructions, work independently when required and demonstrate initiative in meeting operational priorities.
- Ability to communicate effectively with colleagues, contractors and members of the public.
- Willingness to undergo training required to fulfil operational and contractual requirements.
- Willingness to work outwith normal working hours and participate in emergency and operational call-out arrangements where required.
- Full UK driving licence.

Ideal Attributes

- MEWP certification (IPAF, CPC or equivalent).
- Experience of street lighting installation and maintenance activities or equivalent electrical infrastructure.
- Experience of operating tools and equipment associated with street lighting and electrical works.
- Experience of completing work records, inspections or asset management information.
- Possession of, or willingness to work towards obtaining, an LGV driving licence.

Health and Safety

Health & Safety is an integral part of any role within the Highland Council. As such we would expect that all employees:

- Become familiar with Violent Incident and Accident reporting procedures and comply with them.
- Undertake a continual program of Risk Assessment in relation to their role within Highland Council.
- Have an understanding of the importance of Health and Safety in the workplace and familiarise themselves with the Highland Council's Health & Safety Procedures.
