JOB OUTLINE	
JOB TITLE: Street Lighting Electrician	**JET CODE: N/A**
SERVICE: Roads	
DIVISION: Partnerships and Community Services - Infrastructure	
REPORTING TO: Senior Roads Officer (Street Lighting)	
RESPONSIBLE FOR: None	

JOB PURPOSE:

To carry out maintenance and installation work on East Lothian Council's street lighting units, including illuminated traffic signs/bollards, ensuring the delivery of a high standard of work together with the effective operation and completion of all daily tasks and activities as defined.

MAIN DUTIES:

Repair streetlights and illuminated traffic signs with use of a hydraulic platform vehicle.

Carry out electrical testing and inspections to I.E.E. Regulations 18th Edition (BS 7671), the certification of electrical testing and issuing of completion certificates.

Undertake electrical installation work on new and replacement street lighting schemes.

Requisition materials and equipment as required to carry out maintenance and installation projects.

Replace Electricity Company fuses at control points.

Drive a street lighting vehicle and operate minor plant and machinery.

Attend emergency road traffic accidents to make safe any damaged illuminated street furniture.

Participate in the "out of hours" standby rota.

Carry out fault finding and repairs of underground cable faults on East Lothian Council's network.

Undertake all work in accordance with Health and Safety legislation and departmental policy and procedures.

Any other appropriate duties, as requested by Management, commensurate with the grade for the post.
